THE ROAR

Roars from Boss Lion Robert Floyd

MAY YOUR MONTH BE FILLED WITH JOY AND PEACE

I wanted to thank everyone who attended the District Convention this year and give a special thanks to those delegates who attended and voted for our Dynamic Downtown Lions Club. Your President was hard at work while you all were enjoying good food and fellowship. (sad face) Thinking of this convention reminds me of the time David Vessel and I attended the Lions Forum in Omaha Nebraska. With a few thousand Lions under one roof, there was a buzz in the air of a group of people who couldn't wait to help others. We met several distinguished Lions with three letters after their names. We met some PID's, a couple of PIP's, a flock of PDG's, and several other Lions with three letters after their names. David and I didn't have any letters after our names!! Since 1959 when District 2-A1 was spoken into existence your Dynamic Downtown Lions Club has held the office of District Governor thirteen times! Not to mention all the clubs that Downtown has chartered, this achievement is truly astounding! You belong to a Lions Club that is steeped in history and has really done a lot for our fellow man. I wanted to mention a few of the names of PDG's from our club starting with Oscar Cook who was District Governor in 1984-1985. I remember Oscar as a true gentlemen. Cecil Templeton and Bill Leach followed and then our very own John Hancock served from 1995-1996. Marshall Twombly, Roy Landry, and Frank Berthold were also District Governors who have the three letters after their name. Last but certainly not least Mr. Al Owens was District Governor not once but twice!! In no time at all, we will add another name to the list of District Governors from our club, Keith Perrine. You can definitely hold your head up high knowing that you belong to a club that is a true leader and exudes Lionism! Maybe you will be the one to follow Keith as District Governor. Maybe one day you too can have three letters after your name.

The only three colors of the terrain are white, gray and blue. The South Pole warms up to 47 below zero and dips down to 80 below on the cold days. The South Pole is 9,500 feet above sea level.
